EDITORIAL

Dear Colleagues,

It's a privilege to invite you to the **4th Aegean Hematology Oncology Symposium** which will be held on **21-24 September 2017** in **Rhodes - Greece**. The Symposium is co-organized by the University of Athens (School of Medicine) and the Athens Medical Society in collaboration with the Turkish Medical Association of EHOD (Aegean Hematology Oncology Society). This year it is a privilege and a great honor for AHOS to be organized under the auspices of the European Hematology Association, "Scientific Working Group MM".

This meeting is planned to share country perspectives on Hematology Oncology topics between Greek and Turkish Clinicians, to exchange experiences and to create the basis for multi-center, multi-national studies. During the last years, there was a significant progress in the biology of hematological malignancies that led to the development of several novel drugs in the field. The scientific program includes all these data presented by experienced hematologists and it is organized in well-balanced interactive sessions and teaching programs focusing on the needs of Hematology/Oncology Clinicians. For this year we have included a new session "The Invited Speaker of the Organizing Universities" where a famous hematologist from all over the world will speak for his work. It is an attempt to further strengthen our conference and transform it to an International Event.

We selected the island of Rhodes for this meeting due to its historical and cultural background.

We hope that you enjoy both the scientific program and the beauties of Rhodes and we thank you in advance for your contribution in the development of this meeting in order to be even better than the previous AHOS.

On behalf of the Organizing Committee
Evangelos Terpos & Güray Saydam
Co-Chairs
