INVITATION TO INTERNATIONAL WEBINAR ON 'MY WAY: HOT TOPICS IN ACL AND MENISCAL SURGERY'

Dear Colleagues and Medical Professionals,

We are pleased to invite you to join us for an insightful international webinar on Knee, scheduled for September 19th. This webinar promises to be a dynamic platform where experts in orthopedic surgery will share their knowledge and experiences in the latest advancements and techniques on knee.

AGENDA HIGHLIGHTS

- Keynote presentations by renowned surgeons in the field
- Case studies
- Q&A sessions with panelists
- Networking opportunities with global peers

OCTAV RUSSU,
M.D.
FACULTY

Octav Russu is a distinguished Senior Orthopedic Surgeon renowned for his expertise in knee surgery (including ligament reconstruction and patellar instability) and hip and knee joint replacement, with a specialization in sports medicine. As an Orthopaedics and Traumatology Lecturer at George Emil Palade University of Medicine, Pharmacy, Science and Technology of Tg. Mureş, he actively pursues research in structured surfaces for biomedical applications, particularly through electrochemical anodization.

Russu holds the position of President of the Romanian Society of Arthroscopy and Sports Trauma (SRATS) from 2024 to 2026 and plays a pivotal role in organizing conferences and courses under the auspices of the Romanian Society of Orthopedics and Traumatology (SOROT) and SRATS, including the International Knee Course Tg-Mures with ESSKA patronage. He has authored over 70 scientific papers published in national and international journals and presented more than 90 papers at prestigious scientific meetings worldwide. Additionally, Russu serves as a Journal Reviewer for notable publications such as Knee Surgery Sports Traumatology Arthroscopy (KSSTA), Journal of Experimental Orthopedics (JEO), and Acta Medica Marisiensis.

His career is marked by significant fellowship experiences, including the ESSKA Fellowship in 1999 and subsequent fellowships in 2011 and 2015, focusing on knee surgery, arthroscopy, and knee arthroplasty. Russu has been recognized with honors such as the 2011 Bologna Professor Award from the Romanian Student Organizations National Alliance (ANOSR) and memberships in prestigious organizations like the European Knee Associates (EKA). He has also held key roles in ESSKA committees, including the U45 Committee and as Chairman from 2018 to 2020.

PROF. THOMAS TISCHER, M.D.
FACULTY

"Prof. Dr Thomas Tischer is an orthopaedic and trauma surgeon with special expertise in open and arthroscopic knee and shoulder surgery.

He studied medicine at the Ludwig-Maximilians-University (LMU) in Munich. Afterwards he trained at the LMU Munich and the Technical University of Munich (TUM) with special emphasis on orthopaedics sport surgery (Prof. Imhoff).

Additionally he received a short fellowship at the University of Pittsburgh. He wrote his doctoral thesis about the effects of shock wave therapy on bone and tendon tissue in 2002 and his professoral thesis (habilitation) on tissue engineering of tendon and meniscus tissue in 2009. In 2010 he was appointed full professor at the University of Rostock and worked as head of orthopaedic sport surgery there until June 2021. Since then, he is head of orthopaedic and trauma surgery at the Waldkrankenhaus in Erlangen, Germany.

His scientific work deals with basic science research concerning tendon, meniscus and cartilage regeneration/tissue engineering as well as minimal invasive surgical techniques, with over 175 publications currently listed in PubMed. For his work on tissue engineering of the anterior cruciate ligament he received the AGA Don Joy award in 2006. Prof. Tischer is the President of the German-speaking Society in Orthopaedic and Traumatologic Sports Medicine (GOTS) since 2022.

He is also chairman of the ESSKA ACL revision working group and Scientific Chair for ESSKA congress in Prague 2026 and received the ESSKA-AOSSM Fellowship in 2017. He is also Associate Editor of KSSTA and SOT."
